(a) This summary should be read as an introduction to the Prospectus.
(b) Any decision to invest in the securities should be based on a consideration of the Prospectus as a whole by the investor.
(c) An investor could lose all or part of their invested capital.
(d) Civil liability attaches only to those persons who have tabled this summary, including any translation thereof, but only where this summary is misleading, inaccurate or inconsistent, when read together with the other parts of the Prospectus, or where it does not provide, when read together with the other parts of the Prospectus, key information in order to aid investors when considering whether to invest in Maven VCT 1 Shares, Maven VCT 3 Shares, Maven VCT 4 Shares and Maven VCT 5 Shares.

Key Information on the Issuer

Who is the Issuer of the	ne Securities?
Domicile and legal form	Maven VCT 1 is domiciled in England and was incorporated and registered in England and Wales on 12 January 2000 as a public company limited by shares under the Companies Act 1985 (CA 1985) with registered number 03908220 (LEI: 213800VL4S7K6A2YTX94).
	Maven VCT 3 is domiciled in England and was incorporated and registered in England and Wales on 7 September 2001 as a public company limited by shares under the CA 1985 with registered number 04283350 (LEI: 213800WT2ILF5PBCB432).
	Maven VCT 4 is domiciled in Scotland and was incorporated and registered in Scotland on 26 August 2004 as a public company limited by shares under the CA 1985 with registered number SC272568 (LEI: 213800WSH2TNL9NG5106).
	Maven VCT 5 is domiciled in England and was incorporated and registered in England and Wales on 3 October 2000 as a public company limited by shares under the CA 1985 with registered number 04084875 (LEI: 213800DMF84841RMWX35).
	The principal legislation under which each of the Maven VCTs operate is the Companies Act 2006 (CA 2006) and the regulations made thereunder.
Principal Activities	Each of the Maven VCTs is a closed-ended investment company and carries on business as a venture capital trust. The Companies aim to achieve long-term capital appreciation and generate income for their Shareholders.
	Summary of the Investment Policies
	Each of the Maven VCTs intends to achieve its objective by:
	 investing the majority of its funds in a diversified portfolio of shares and securities in smaller, unquoted UK companies and AIM/AQSE quoted companies that meet the criteria for VCT qualifying investments and have strong growth potential;
	 investing no more than £1.25 million in any company in one year and no more than 15% of its assets by cost in one business at any time; and
	 borrowing up to 15% of net asset value, if required and only on a selective basis, in pursuit of its investment strategy.
	Each of the Maven VCTs manages and minimises investment risk by:

- diversifying across a large number of companies;
- · diversifying across a range of economic sectors;
- actively and closely monitoring the progress of investee companies;
- co-investing with other clients of the investment manager of the Maven VCTs, Maven Capital Partners UK LLP (the Manager or Maven), other VCT managers, and/or other co-investment partners;
- · ensuring valuations of underlying investments are made fairly and reasonably;
- taking steps to ensure that the share price discount is managed appropriately; and
- choosing and appointing an FCA authorised investment manager with the skills, experience and resources required
 to achieve the investment objective, with ongoing monitoring to ensure the Manager is performing in line with
 expectations.

Restrictions

Each of the Maven VCTs is subject to the investment restrictions relating to a venture capital trust in the Income Tax Act 2007. In addition, for so long as its shares are admitted to the Official List, each of the Maven VCTs is required to abide by applicable Listing Rules including the following:

- it will at all times invest and manage its assets in a way which is consistent with its objective of spreading investment risk and which is in accordance with its published investment policy;
- it will not conduct any trading activity which is significant in the context of that Maven VCT (or, if applicable, its group as a whole); and
- not more than 10% in aggregate of the value of the total assets of each Maven VCT at the time the investment is
 made will be invested in other closed-ended investment funds which are listed on the Official List unless those
 investment funds have stated investment policies to invest no more than 15% of their total assets in other investment
 companies which are listed on the Official List.

Major Shareholders

Save as set out below, as at 5 October 2022, being the last practicable date prior to the publication of this document, none of the Maven VCTs is aware of any person who, directly or indirectly, has or will have an interest in its respective share capital or voting rights which is notifiable under UK law (under which, pursuant to CA 2006, the Listing Rules and the Disclosure Guidance and Transparency Rules of the FCA, a holding of 3% or more will be notified to it), or who can, or could following the relevant Offer, directly or indirectly exercise control over that Maven VCT:

Maven VCT 1

Shareholder	Number of Maven VCT 1 Shares	% of issued Maven VCT 1 share capital

		In each case, decisions on distributions take into consideration a number of factors, including the realisation of capital gains, the adequacy of distributable reserves, the availability of surplus revenue and the VCT qualifying level, all of which are kept		
		Each of the Boards and the Manager recognise the importance of tax-free distributions to Shareholders and, subject to the		

considerations outlined above, will seek, as a guide, to pay an annual dividend that represents around 5% of the NAV per Share of the relevant Maven VCT at the immediately preceding year end. It should be noted that the effect of paying a dividend is to reduce the NAV of the relevant Maven VCT by the total cost of the distribution.

As the portfolios of each Maven VCT continue to expand and a greater proportion of holdings are invested in early stage companies, the timing of distributions will be more closely linked to realisation activity, whilst also reflecting the relevant Maven VCT's requirement to maintain its VCT qualifying level. If larger distributions are required as a consequence of significant exits, this will result in a corresponding reduction in NAV per share. However, each Board considers this to be a tax efficient means of returning value to Shareholders, whilst ensuring ongoing compliance with the requirements of the VCT legislation.

Where will the securities be traded?

Applications will be made to the FCA for the New Shares to be admitted to the premium segment of the Official List and will be made to the London Stock Exchange for the New Shares to be admitted to trading on the London Stock Exchange's Main Market for listed securities, on which the existing shares of the Maven VCTs are traded. It is expected that each such admission will become effective, and that dealings will commence, within ten business days of their allotment.

What are the key risks that are specific to the securities?

Set out below is a summary of the most material risk factors specific to the securities

- The sale of New Shares within five years of their issue will require the repayment of some or all of any initial income
 tax relief obtained on the investment.
- The majority of the investments of the Maven VCTs are in smaller private companies, and it can be difficult to value and dispose of such companies relative to larger more established companies. In addition, as unquoted companies tend to have less mature businesses, less depth of management and a higher risk profile, the risk of insolvency in unquoted companies is higher than in quoted stocks. It can also take a number of years for the underlying value or quality of the business of smaller companies to be fully reflected in their market values. All of these factors could lead to volatility in the NAVs of the Maven VCTs.
- The investments that the Maven VCTs can make are subject to the "risk-to-capital" condition in the Finance Act 2018, which, together with the increased investment restrictions introduced by the Finance (No. 2) Act 2015, is designed to focus investment on businesses that are in an earlier stage of development than those that the Maven VCTs invested in prior to the VCT rule changes introduced in 2015. This may limit the ability of the Maven VCTs to provide further investment to Investee Companies already in the portfolios, which may result in loss or dilution of the investment and could affect the returns to the Maven VCTs and Shareholders. The "risk-to-capital" condition increases the risk profile of Investee Companies as they will be at an earlier stage of their growth. The value of earlier stage companies is often more volatile than more mature businesses, making it more difficult to predict future value.
- The Maven VCTs may also invest in businesses quoted on the Alternative Investment Market (AIM), which can be higher risk than investment in larger companies listed on the Main Market of the London Stock Exchange, as they may have limited trading history, product lines, markets or financial resources and may be dependent on a smaller number of key individuals in the senior management teams. The market for shares in AIM quoted Investee Companies may be less liquid than that for larger listed companies and may impact the ability of the Maven VCTs to realise investments in a timely fashion and at satisfactory prices.
- Under the VCT scheme approved by the European Commission in 2015, a "sunset clause" is in place which provides that initial income tax relief will no longer be given on subscriptions in new VCT shares made on or after 6 April 2025, unless the legislation is renewed by an HM Treasury order. The Chancellor of the Exchequer announced on 23 September 2022 that the VCT scheme will be extended beyond 6 April 2025 but at this stage no further details have been confirmed.

Key Information on the Offer of Securities to the Public and/or Admission to Trading on a Regulated Market

Under which conditions and timetable can I invest in this security?

Amount of Offers

Pursuant to the Offers, up to £40 million of New Shares are being made available in total by the Maven VCTs at the offer prices set out below

Share Allotment Basis

The number of New Shares to be allotted to a successful Applicant under each Offer will be determined by the following Allotment Formula:

Number of New Shares =
$$A - B - \frac{A - B - B}{N\Delta V}$$

Where:

- A. is the Application Amount (being the total amount provided with the Application and accepted under the relevant Offer, including any amount to be facilitated as an initial adviser charge);
- B. is the Offer Administration Fee (which is 2.5% of the Application Amount (A)), less any applicable Early Investment Incentive discount or amount as may otherwise be waived by Maven at its discretion;
- C. if applicable, is either
 - (i) any initial adviser charge that the Applicant has agreed should be facilitated to an adviser from the Application Amount (up to a maximum of 4.5% of the Application Amount (A)); or
 - (ii) any initial commission that the Applicant has agreed should be paid to a financial intermediary (up to a maximum amount of 3% of the Application Amount (A)); and
- NAV is the most recently published NAV per Share of the relevant Company as at the date of allotment, reduced to reflect any dividends declared after the NAV is published (being those dividends for which the record date has passed and would, therefore, not be received in respect of New Shares).

Terms, Conditions and Timetable

Each of the Offers is conditional upon the passing of the resolutions at the relevant Maven VCT's General Meeting (each to be held on 9 November 2022).

The Offers open on 7 October 2022. The deadline for receipt of applications for final allotment in the 2022/2023 tax year is 12.00 noon on 4 April 2023 and the deadline for receipt of applications for final allotment in the 2023/2024 tax year is 12.00 noon on 26 May 2023. It is expected that the admission of the New Shares to the Official List and to trading on the London

Stock Exchange will become effective within ten business days of their allotment.

Costs Associated with an Investment in new Shares

An Offer Administration Fee will be applied to every Application, in accordance with the Allotment Formula. The fee is normally equal to 2.5% of the Application Amount (as reduced by any applicable Early Investment Incentive discount) and is paid, by the relevant Company to Maven, from the application monies provided with an Application. In return for this fee, Maven has agreed to meet all costs associated with each Offer, excluding any initial and trail commissions paid to financial intermediaries. Maven may further agree to waive any part of its Offer Administration Fee in respect of any specific investors or group of investors.

Where an Applicant has also agreed that an initial execution-only commission or adviser charge should be paid to their financial intermediary, through the Application, that will also be applied as a deduction from the amount available for investment in New Shares, in accordance with the Allotment Formula.

Investors will indirectly bear the costs of the Offer in which they participate through the calculation of the number of New Shares to be allotted to the relevant investor (as calculated under the Allotment Formula), which includes an allowance for offer costs of up to 2.5% and, for any initial commission or initial adviser charge payable in relation to an investor's application. Any annual 'execution-only' intermediary trail commissions will be the responsibility of the relevant Mayen VCT.

Initial Adviser Charges and Execution-Only Commission

Adviser Charge

Advised investors who receive advice from their financial intermediaries can instruct that an initial adviser charge they agree with their adviser be facilitated by the Receiving Agent (subject to a maximum amount equal to 4.5% of the Application Amount). If facilitated, this agreed amount will be deducted from the monies received from the investor.

Execution Only Commission

In respect of an Application submitted through an execution-only financial intermediary, the Applicant can agree that an initial commission be paid to the financial intermediary of up to 3% of the Application Amount, or the financial intermediary can choose to waive all or part of the initial commission for the benefit of the Applicant. Any amount of initial commission to be paid will be deducted from the Application Amount for the purposes of determining the number of New Shares to be issued to the Applicant, in accordance with the Allotment Formula, and paid to the financial intermediary by the Receiving Agent. In addition, such an intermediary will normally be paid an annual trail commission of 0.5% of the Application Amount for up to four years, expected to be payable as at 31 December 2023, 2024, 2025 and 2026 (provided that the intermediary's client continues to hold their New Shares, has not subsequently received advice from that intermediary in respect of the holding arising through participation in the Offers (or any existing holding in the Maven VCTs), and continues to be a client of the intermediary).

Dilution

On the basis of full subscription of £40,000,000 (assuming the Maven VCT 3 and Maven VCT 4 over-allotment facilities are both utilised in full) under the Offers, that all investors are eligible for the maximum amount of Early Investment Incentive, that no execution-only initial commissions are paid in relation to the applications, and on the assumption that the applicable NAV per share used in the Allotment Formula is 43.72p for each Maven VCT 1 Share, 56.03p for each Maven VCT 3 Share, 66.56p for each Maven VCT 4 Share and 34.79p for each Maven VCT 5 Share, the maximum number of shares to be issued and the percentage dilution in existing shareholders voting control of each Maven VCT, will be as follows:

	Maximum number of shares to be issued by the relevant Maven VCT	Percentage dilution in existing shareholders voting control of the Maven VCT
Maven VCT 1	22,644,098	14.41%
Maven VCT 3	17,669,105	14.42%
Maven VCT 4	14,873,798	10.24%
Maven VCT 5	28.456.453	13.85%

Why is this Prospectus being produced?

The reason for the publication of the Prospectus is the launch of the Offers to enable each of the Maven VCTs to raise funds by the issue of New Shares.

The net proceeds of each Offer will be pooled with the existing cash resources of the relevant Maven VCT and utilised as follows:

- to make new and follow-on investments in accordance with the investment policy of the relevant Maven VCT, subject to satisfying VCT rules;
- to facilitate the payment of dividends and market purchases of shares (subject to having unrestricted for VCT legislation purposes - distributable reserves); and
- to meet annual running costs.

In relation to each Maven VCT, the total net proceeds of its Offer, after all fees, are £9,750,000 (on the basis of a full subscription of £10,000,000 (assuming the Maven VCT 3 and Maven VCT 4 over-allotment facilities are utilised in full) and that the Offer Administration Fee per New Share is 2.5%).

The Offers are not underwritten.

There are no conflicts of interest that are material to the Offers.
